CAREER OBJECTIVE:

Having worked in the IT industry for the past four years, I am quite happy to say that I have learnt a lot of things ranging from the technical aspects of an organization to the behavior aspects, presentation skills and work dedication which an employee must possess. The short term goals which I had during my graduation have now transformed in to bigger goals in my life. There is always a feeling deep in my heart which says I really want to achieve something great in my life. I strongly believe that “Every Accomplishment starts with the decision to try”.

PROFESSIONAL SUMMARY :

Currently working as **Configuration Manager** at **Deltazia SCM Solutions**, from 1th December 2015 to till date.

Client locations assigned:

1) NXP Semiconductors Pvt Ltd (now Qualcomm)

Duration: From December 7th 2015 to August 30th 2016, and November 2nd to date.

Designation: Configuration Manager and DevOps Engineer

Nature of Work: Carrying out day to day release activities, managing repositories using version control tools like GIT and SVN, carrying out quality scans on the source code, Continuous integration on Jenkins and Deployment using concerned tools, fireworks management, access management, automation of release process to ease delivery and Training.

2) Indegene Lifesystems Pvt Ltd

Duration: From August 31st 2016 to October 28th 2016.

Designation: Configuration Manager

Nature of Work carried out: Setup of SVN and Jenkins for the team and provided training to the developers.

I have also been working as a part time **DevOps** trainer for **CSS India Pvt Ltd** and **ActivMaxis Technologies** for the past 1.5 years. I have trained over 40 overseas students (US) on DevOps.

Prior to this, I have worked as “**Build and Release Engineer**” at Ssquare Web Solutions Pvt Ltd, for two years (Dec 2013 to Dec 2015). I had handled a team of 10 members and I was in-charge of Builds and Release activities.
